

HEDWIGE SLIPPERS

Materials:

No. 6 needles (either circular needle or two needles)
Two balls of wool style "Super Sport" 100 g (approximately 100 meters)
A ball of wool "hairy" (about 20 meters)
The felt for a more comfortable version of the fleece

Explanations:

Cast on either on circular needle, or with two needles (in this case will require a seam on the back of slipper) 36 sts with wool "Super Sport" knit rib 1/1 for 10 centimeters.

Only on the first 9 sts (putting others on a wast yarn) always knit rib 1/1 to get the foot length less than 4 centimeters.

Rib 1/1 : knit 9 stitches, pick up and knit along the edge 11 stitches, knit stitches put on wast yarn, pick up and knit 11 stitches along the edge. Continue on these sts for every 4 centimeters.

Then, now on stockinette stiches, knit two stitches together on both sides of the middle stitch of the central front and back of liner, that every two row, until the sole is formed and covers the entire underside of the foot, or about 4 times. (4 sts decreased by row).

3 needles bind off or bind off and sew, so that it does not interfere in the foot.

With wool "hairy" cast on 5 stitches and knit stockinette st until length around the top of the slipper, bind off.

Finishes:

Sew, if necessary sew behind the liner and the bottom of the foot. On the felt, trace 4 soles (using, for example, a shoe or a slipper sole). Make the same way 2 soles the fleece. Sew a felt sole and sole fleece (2 times)with a sewing machine.

Then sew the two sole remaining under the felt slippers. Insert the felt-fleece soles in each slipper. Sew the band wool "hairy" around the top of the slippers.
