## Acts

**An Act of Parliament creates a new law or changes an existing law. An Act is a Bill approved by both the House of Commons and the House of Lords and formally agreed to by the reigning monarch (known as Royal Assent). Once implemented, an Act is law and applies to the UK as a whole or to specific areas of the country.**

Docs 4 & 5. Language and political power: essential objective of politicians? Their role in times of crisis? Define "parliament" and comment on the word "parliament"=? Say what an "act" is in British Parliament and share your reactions. Listen to Obama's declaration and give his opinion on "words".
