- > **Cultivated space** : 45 ha
- > **Production** : 133 000 btles
- > **Soil(s)** : micaschiste

The philosophy of the domain :

For 5 generations, the family Lebrin has worked the vineyard of the Château de l'Aujardière. Located near the city of Nantes, the property is installed on a former seigneurial domain of the XVIIIth century.

In 1999, Olivier Lebrin took over the family property and the 26 hectares of wines which make it up. He has expanded the vineyard and specialized in the making of regional and atypical wines.

Mode of driving of the vineyard, wine-making and ageing :

The terroir is mostly composed of micaschist which gives the wine complexity and finesse.

The vineyard is managed in a reasoned way. A part of the soil is worked for a greater respect of the environment.

Nowadays, the domain represents 45 hectares of planted vines and 14 different grape varieties.

With such a diversity of grape varieties, the Château de l'Aujardière offers visitors the opportunity to discover four ranges of wines: Pleasure wines, wines of Character, Exceptional Wines and the Unreleased of the Château de l'aujardière.

Olivier Lebrin combines tradition and modernism in his winemaking for an optimal wine quality and for the pleasure of his customers!
